Eager to leverage my skills, knowledge, and dedication to contribute to a challenging and dynamic environment. Recognized for exceptional work ethic, adaptability, and effective problem-solving abilities.

TECHNICAL SKILLS

Technologies: Java, Python, HTML, CSS, JavaScript, MySQL

Tools: Git, GitHub, Postman, MS Excel, MS Word, MS PowerPoint

Soft Skills: Problem Solving, Adaptability, Critical Thinking, Communication.

PROJECTS

Returns Management System

2023

Full Stack

Java Servlets, MySQL, HTML, CSS, JavaScript

Developed a **Java-based full-stack web application** to optimize the **product return process**, reducing losses and improving inventory management. Implemented **user and employee authentication, return tracking, and decision-based warehouse allocation** using **Java Servlets, MySQL, HTML, CSS, and JavaScript**. Designed **dynamic and interactive web pages** to enhance user experience and streamline data processing.

Expense Tracker Web App

2024

MERN

MongoDB, Express, Node.js, React

Developed a **full-stack web application** to track and manage daily expenses. The application includes login/signup functionality with secure authentication, user-specific data management, and an intuitive dashboard for tracking income and expenses. Designed for both individual users and administrators, the app offers features such as adding, editing, and categorizing transactions, enabling users to maintain better financial control. The interface is user-friendly, ensuring seamless interaction across desktop and mobile platforms.
