

NASIGARI THANUSH

AI-ML Engineer

✉ nasigarithanush@gmail.com

☎ (+91) 9542341977

Results-driven and detail-oriented AI-ML engineer with a solid foundation in Java and Python. Strong analytical and communication skills, coupled with a proactive approach to learning and adapting to new technologies. Committed to contributing technical expertise to advance projects and exceed organizational objectives.

Projects

Sentiment Analysis

Developed a sentiment analysis model to classify the reviews as positive or negative using IMDB movie reviews as training data. Used Natural language processing (NLP) techniques and NLTK library for preprocessing the text data, and a logistic regression algorithm for building the model.

Technologies used : Python, Flask, HTML.

Heart Disease prediction

Developed a heart disease prediction model using logistic regression to predict the likelihood of a patient having heart disease based on their information. Evaluated the performance using metrics such as accuracy, precision, recall, and F1 score.

Technologies used : Python, Flask, HTML.

Education

Keshav Memorial Institute of Technology

B.Tech(CSE-AIML) - CGPA : 7.6

Graduation :2025

Narayana Junior College : 2021

Intermediate – 95.2

Sri Sai Grammar High School : 2019

SSC - GPA : 9.8

Technologies

- Java
- Python
- HTML ,CSS
- JavaScript
- NLP
- MySql
- Git
- Github
- Pandas
- Numpy
- Deep Learning neural networks
- ML algorithms
- Tensorflow
- Keras
- Scikit-learn
